Q1) Read the following passage and answer the following questions. 8

Krakatoa is an active volcano. It has erupted several times causing great disasters. The worst of the eruptions took place in August 1883. The

Volcano erupted with a loud boom that man has ever heard. The island, which was a volcanic mountain, collapsed on itself. The dust that was thrown up in the eruption rose to about 80 km in the sky. It spread in the sky around the world and later settled in different parts of the world thousands of kilometers away.

The eruptions caused giant waves or tsunamis in the sea near the island. 165 villages and towns were destroyed due to the eruption and tsunamis
